# CLIMATE CHANGE:

## How will it affect Kittitas County?

**Hal Holmes Center**  
**Saturday, March 24, 9am - noon**

Hotter, drier summers and declining snowpack indicate a changing climate. What is the future of agriculture in Central Washington? What crops will continue and what will be added? Where, why and at what cost? Will we grow green things at all? Or will we become a housing bank for the west side? Bring your questions.
