Were any issues on the agenda relevant to any LWV state or local positions or programs? **NO**

Do you recommend local League action on any of these issues? N/A If 'yes' what action do you recommend?

Do any of the issues raised during this meeting suggest further study by the League? **NO**

Observer Name: Elizabeth Wise Date Submitted: 06/28/2022

List names of other LWV members in attendance:

none

List any other concerns or observations:

1)Public comment made re: CE/Roslyn elementary school at capacity, Middle and High Schools nearing capacity, asking Council therefore to stop permits for any "big developments" (editorial comment: 47 Degrees North)—we will want to continue to watch what's happening re: development. 2)Nice discussion between Mayor and council with regard to need to replace the Vacuum Truck and whether Mayor should be able to authorize purchase independently if a used one becomes available vs call a special meeting of Council (they decided on the latter). 3)Re: environment, nice to hear from Debbie Bogart for Downtown Assoc that the

water from the “Dock Diving” tank at Pioneer Days will then be pumped by Fire Dept and reused to water the grass where fireworks show launches.

List any other concerns or observations:

Seemed to have good concern for allowing enough time and publicity for public input on amendments to Flood Hazard Regulations, even though the changes were reported to be required keep residents eligible for flood insurance, instead of passing the resolution tonight.
